Experience

Research Assistant

08/2025 –

University of Oslo

I am currently employed as a research assistant and seminar leader participating in research on climate, corruption, conflict, democracy, etc. My main expertise is in quantitative analysis working with econometric models and data visualisation. I have taught quantitative and qualitative method courses on both Bachelor and Master levels, with a focus on statistical analysis and coding. I mainly use the programming language R, however, I am also familiar with using Python. My teaching experience also includes courses in conflicts and human rights, international politics, economics, law, and history.

Summer Intern

06/2025 – 08/2025

University of Oslo

I was a research intern for six weeks on a project called EU Energy Policy Review. I gathered data on European countries' targets for the build out of renewable energy production and I used this data to do analyses. Here I gained a lot of expertise on the European climate and energy policy and was able to show that I am adept at working across research fields.

Intern and Consultant

04/2024 – 02/2025

Civita

I started working for the Norwegian think tank Civita as an intern and stayed on as a part-time consultant. Here I wrote about national and international challenges facing Norway and was able to work directly with Norwegian politics. I wrote analyses of Norway's relationship with India, China and rare earths, and I also worked on a large project comparing government spending on health and education in several different countries. Here I was able to show both my macroeconomic and political competence.

Education

Master's in Political Science

08/2023 – 06/2025

University of Oslo

Master's in political science with a focus on methodology and international relations. I wrote my thesis about the diffusion of autocracy and worked a lot with both frequentist and Bayesian statistical analysis, game theory, and security and international politics.

Bachelor's in Political Science

08/2022 – 06/2023

University of Oslo

Bachelor's with a broad research focus both on international relations and Norwegian politics. This included courses in security politics, EU, public administration, etc. Here I was able to gain an understanding of the breadth of the field.

Bachelor's in Japanese Language and Culture

08/2019 – 06/2023

University of Oslo

Bachelor's with a dual focus on both language and culture.

Exchange

10/2021 – 08/2022

Shinshu Universitet

I received a sought after scholarship for studying in Japan. Here I took language, political science, game theory, and maths courses.

Skills

PROGRAMMING	R, Python, $\LaTeX$, HTML, CSS, JavaScript, SQL
GITHUB	https://github.com/Henning-Aasheim
SPORTS	Cross country skiing, running, and cycling

Languages

Norwegian	<i>Native</i>
English	<i>C2</i>
German	<i>B2/C1</i>
Japanese	<i>B2/C1</i>
Chinese	<i>A1</i>
